5. Fire-Fighting Measures

Personal Precautions: As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

Extinguishing Media: In case of fire, use water spray, dry chemical, carbon dioxide, or alcohol-resistant foam.

6. Accidental Release Measures

General Information: Use proper personal protective equipment as indicated in Section 8.

Personal Precautions: Wear self-contained breathing apparatus, eye protection, and gloves. Keep personal hygiene. Avoid dust formation.

Environmental Precautions: Do not let product enter drains.

Spills/Leaks: Sweep up and place the material in appropriate container for disposal. Ventilate area, clean up spills, and wash spill site after material pickup is complete, observing precautions in the Protective Equipment section.

7. Handling and Storage

Handling: Wash hands thoroughly after handling. Remove contaminated clothing and wash before re-use. Use with adequate ventilation. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation.

Storage: S/IS Vial: Store at $<-10^{\circ}\text{C}$ under dry conditions. Keep container tightly closed.

Buffer: Store between $2-8^{\circ}\text{C}$. Keep container tightly closed.

8. Exposure Controls/Personal Protection

Do not contain substances with occupational exposure limit values.

Environmental Controls:

Handwashing facilities should be provided in the work area. For typical conditions of storage and use, natural ventilation should be adequate. In enclosed areas, mechanical ventilation may be required if high volumes of dust are generated.

Personal Protective Equipment:

Eye Protection:

Wear appropriate protective eyeglasses, chemical safety goggles or face-shield (min. 8-inch) as described by OSHA's eye and face protection regulations.

Hand Protection:

Gloves are recommended when handling especially for large quantities. Refer to EU Directive 89/686/EEC and the standard EN 374 derived from it.

Skin and Body Protection:

Use protective clothing when handling large quantities. Remove any contaminated clothing to avoid prolonged contact with the skin. Wash work clothes regularly.

Respiratory Protection:

Where risk assessment indicates air-purifying respirators are required use a dust mask type N95 (US) or type P1(EN 143) respirator. For higher level protection use type OV/AG/P99 (US) or type ABEK-P2 (EU EN 143) respirator cartridges. Respirators and components must be tested and approved under appropriate government standards - NIOSH (US) or CEN (EU).

Hygiene Measures:

Use good working practices. Wash hands and face thoroughly after handling.
